

ARTIS, AN OLD AND BEAUTIFUL ZOO

July 7, 2010

One of the oldest zoos in Europe, [Artis](#) was opened in 1835 and has a very beautiful old setting with terrific gardens and monumental buildings. Most of the animal lodgings have thankfully been modernised since! There are some fantastic playgrounds, and there's a good restaurant, with plenty of high chairs and facilities to heat up milk or baby food. Also, another good thing to know is that cute pushchairs can be rented for the day for a small deposit. This zoo is not too big but has truly a lot to offer, with plenty of interior fun for rainy days as well. Good for a lovely day out with the family!
