

GUMHOOKS

MAY 5, 2008

Aren't these [gumhooks](#) cool? These soft,

silicone hooks are perfect for a kid's room because there are no sharp edges. I like the idea of hanging them at a level your kids can reach so they can hang their own coat up without worrying about tearing or damaging the clothes.

Plus, I just think they look cool. Each hook is sold separately so you can choose which colors you want (broccoli, carrot, pumpkin, eggplant).

Actually... forget the kids. These would look cool in any entryway, hallway or closet! And who doesn't need more hooks in their home?
