

HOOK 'N' STROLL

JULY 4, 2008

Sometimes the most useful things are also the simplest. These [Happy Mummy Hook 'n' Stroll](#) pram hooks

belong to that category.

They have Velcro straps (so they will fit any pushchair bar), the big hook rotates, and they can hold up to 10kg... what else can you ask for?

I bought my set in London and am always stopped in Milan by other mums, and even shop owners, asking where to get them. Unfortunately they are not yet for sale in Italy, but many websites carry them and [some](#) do not have high international shipping fees. Just do not overload your stroller now!
