

## TOY BAGS (OR SO)

APRIL 22, 2009

I love these hand-made [Lidan](#) bags from Ikea. I discovered them by

accident in the bathroom section when I needed soft toy storage for the few wooden toys belonging to my first baby (how things can change), and have used them ever since for all sorts of purposes around the house. As toy storage like I said, but also in the bathroom, in the cupboard, in the garden, etc. They come two in a pack, have a loop for hanging and are very, very kind on the wallet. Best of all? Washable at 40°.
