

## DARLING CLEMENTINE

NOVEMBER 9, 2010

How cute are these designs?! They're inspired by 1950's finger puppets... and are part of a [6-piece Marionette Card Set](#) from [Darling Clementine](#). Cute for children's birthday cards or stationery. (I think I'm going to hang my set up on a wall in the kids' room!) Darling Clementine is a new-to-me design studio or 'paper empire' as it says on their site. Check out all of their designs - I also love the [Noel Darling Christmas cards](#).

(First seen on the [Famille Summerbelle blog](#))
