GIANT COLORING POSTER

APRIL 20, 2012

Here is yet again a product that I am officially buying for the good of my children, but to be honest, I actually also want it myself. It is a 3m (which I believe is 10 ft) long [giant colouring poster](#)! Can you imagine pulling this out of your hat one rainy weekend, when everyone is cranky and a little bit bored?? I reckon this could be a hit for the whole family! It can be used as wallpaper that kids officially can draw on, or you can spread it out on the floor or use as a tablecloth for a party - the possibilities are endless.
