

CLARA DE PARIS

MAY 18, 2012

We finally had some nice weather, here in Montreal last weekend and we were able to dress in some of our new summer outfits. My little one just learnt how to twirl, so she was more than willing to take some photos to show off her new skirt... I hope your head isn't spinning!
We just love this little outfit by Le Petit Lucas du Tertre, courtesy of [Clara de Paris](#), the skirt is made from the softest & lightest cotton, perfect for hot summer days and I am most impressed with the quality of the tank top. I just love how the colors go so well together although they don't really match! I also really love the photo campaign for their summer collection; they always find a creative way to

showcase their clothing.
