

## CRAFT IDEAS FOUND ON PINTEREST

AUGUST 10, 2012

Looking for some summer craft inspiration? I always browse our [Ideas](#) and [Crafts](#) boards on Pinterest when I need some good ideas. There are so many great ideas out there, and so many of them are so simple and do-able. Here are some of our recent Pinterest finds:

1. I love this [idea](#) of decorating train tracks. They look so cute and colourful.
2. [This](#) craft project from [Ms. Jessi](#) looks so easy!
3. Can't beat some colourful sidewalk chalk on a sunny summer's day! Idea found [here](#).
4. There are so many DIY tutorials for creating cardboard playhouses on Pinterest. I especially love [these images](#). And I also like [this idea](#) for a collapsible cardboard playhouse (great for storing away when not in use!).
5. For littler kids, how great is this [finger painting project](#)?! Just tape your child's name onto paper and then let them go crazy with paint. Remove the tape, and voila! Their name in white!
