

XO-IN MY ROOM: FURNITURE FOR KIDS

SEPTEMBER 11, 2012

I really love finding great furniture for kids, just like the charming furniture made by [xo-in my room](#). And I also love finding out that the people behind the brand are from Barcelona - Spain. This is a three brother adventure: one is a photographer, the one in the middle is in charge of publicity and logistics and the youngest brother is a craftsman. With this unique combination they decided to get together and build up xo-in my room.
