

OUR SEPTEMBER PROJECT

OCTOBER 1, 2012

Last week I wrote in [escarabajos bichos y mariposas](#) about the little project we have at home. The florist of our neighbourhood gave Nico a plant as a present. That's when we thought we were going to take care of it with love!. The florist told us it has to be watered once a week, so we decided to do it on Saturdays, and make a note to remind us.
