

MONSTRES - A COOL DRESS UP CONCEPT

NOVEMBER 13, 2012

So fun, these dress-up clothes from Catalan brand [Monstres!](#) The concept behind these pieces is simple yet smart. At first sight they appear to be everyday style jumpers, but with a simple change (like pulling up a hoodie or zipping on a tail), the seemingly simple pieces transform into something every kid loves: a dress up outfit on-the-go.

I got Pim the above [dragon jumper](#) and he absolutely loves it. The big pocket on the front holds the gloves and tail when not in use, and with the hood down it looks simple enough to wear to school (and of course it converts to a dragon outfit immediately after). It's his favourite jumper to wear - and understandably so!
