

## LITTLE TITANS. TIGHTS FOR BOYS!

NOVEMBER 19, 2012

When Ava was a little crawling baby girl, I loved to dress her in tights layered with onesies or bloomers, and she would look so cute,

be so cosy and warm and have the freedom to crawl all over the place unhindered. Now that I have a little baby boy, I'm so happy with the new company [Little Titans](#), making... tights for boys!

Little Titans tights feature fun designs that are fit for boys (check out the cool [superhero](#) tights!), made from high quality materials and with practical features such as cosy terry-lined feet area and non-slip soles. The tights are sold in the most adorable little boxes, which makes them perfect for gift giving as well. So cool!
