

LAST MINUTE CHRISTMAS DECORATION: A HEART OF LIGHT

DECEMBER 20, 2012

This is a very easy DIY perfect for a last-minute decoration. I [made it](#) with some wire, wool, and christmas lights.

*wire
christmas lights
wool*

And here is the result. You could do diferent shapes with the wire. Maybe a star or a christmas tree, or you could even spell out words. I didnt have much time to do this, so I chose the heart, as it is the easiest thing to do ;-). After doing the shape you just twine the christmas lights and the wool in the end to cover the cord.
