

## CUTE AND CLEVER PRODUCTS FROM LITTLE NAME

JANUARY 3, 2013

I have just recently discovered this sweet little [boutique](#). The collection at [Little Name](#) is small, but every one of the products is noteworthy for being both cute AND clever. The adorable little handkerchief/scarf can also be used as a checkers board game for impromptu games in the park. And the little wooden lunch box opens up flat to be a portable place setting, either for picnics or for school lunches. The coasters have numbers on them so they can be used to practice math skills and the shoe laces are labeled 'left' and 'right' so kids never get mixed up. Innovative, educational and beautiful too.
