

CHOCOLATE MINT PATTIES

JANUARY 16, 2013

My sister recently discovered [this recipe](#) for homemade chocolate mint patties on [Design*Sponge](#) and we were intrigued for two reasons: the first being that they look SO tasty (and who doesn't love mint patties?!) and the second being that you get to make the mint filling, roll it out flat, cut shapes, and then dip the shapes into chocolate. Fun!
