

KOUCH

MAY 13, 2010

I absolutely love these children's couches by **KOUCH**. Hand crafted in Melbourne, they are good looking, safe, sturdy, functional and built to last (with a lifetime guarantee to boot). And they don't sport a single Disney/Wiggles character (so your living room won't suffer in the name of your toddlers faddish inclinations). Although specifically designed for children 1 - 5 years, the Kouch has ample room to share with a 'big' person for a book, a play, a snuggle or best of all... all three!

It's good to know that they are also endorsed by specialised children's chiropractors for providing good postural support to delicate little spines!
