

RETRO-INSPIRED PERSONALIZED LUNCHBOXES

OCTOBER 11, 2010

These gorgeous personalised lunchboxes by [Feterie](#) are high on my birthday list for my children this year. With a bit of a retro-cool vibe, they are of lightweight tin construction and as functional as they are stylish. I think they'd be great for toting around paper and coloured pencils too, or whatever knick-knacks it is kids love to drag around (footy cards in my son's case). I can also imagine them being great for keeping all my daughter's hair paraphernalia together - those elastics, clips and ribbons crop up all over the house, yet when we need to tie her hair each morning for school, there's never one to be found! [Feterie](#) ship world-wide.
