

WATER-RESISTANT GARLANDS FROM HIP HOORAY

OCTOBER 18, 2010

I recently discovered these nifty reusable [SmartGarlands](#) from Hip Hooray. What makes them so brilliant is that they *look* like the beautiful tissue paper garlands I love so much... yet they're made of a water-resistant, high density polyethylene material which makes them super durable and totally reusable. I can't tell you how many garlands I've had to throw away because our outdoor party got rained out and the garlands got soggy.

You can buy the SmarGarlands in loads of different [color schemes](#) to celebrate every holiday imaginable, including birthdays, Halloween, new baby arrival, Christmas, etc. The garlands are hand produced in America, but they ship worldwide. And for the rest of the month, Hip Hooray is offering Babyccino Kids readers FREE worldwide shipping when ordering 3 or more SmartGarlands! Click [here](#) for USA shipments or [here](#) for international shipments.
