

## HIP PHOTO SHARING WITH INSTAGRAM

FEBRUARY 10, 2011

If you have an Iphone, you're probably already aware of the wonders of [Instagram](#) - I'm always hopelessly behind with these sorts of things (I'm only just starting to figure out Facebook). [Instagram](#) basically lets you take a picture of the object of your desire (in my case my kids), effortlessly add a filter to make it look really cool and hip, and immediately share it with your friends using Twitter, Facebook, Flickr, or other social networking tools. A very cool app indeed!

xxx Esther

PS Photos of my two lovely daughters Sara and Ava

Category: [For Kids](#), [For Mums](#), [Gadgets](#), [Music](#), [Films & Apps](#)
